Board of Technical Education
Kerala, India

CERTIFICATIONS

CSM , Scrum Alliance
DBA, Oracle 9i,10g
Oracle

PROJECTS HANDLED

1. Healthcare EMR Platform(Overseas client: Kingdom of saudiarabia)

This is a web application is used for EMR System , Bring all patients, physicians, hospitals, clinics, pharmacy in one umbrella. based on regions,cit etc Patients can find the physicians from all over world based on speciality needed
Technology Used: .NetCode , C#,PLSQL,Oracle,HighCharts, AWS

2. E Dash

This is on going application , regenerating old application dash board to new design using react-js
Technology Used: .Net Core, Node, React-Js, Python, SQLServer

3. Pharmacure

This is a web application is used for to know the status of drugs in whole hospitals in the country, Drug requests and distributions through the centralized office and regional office. Drugs details are mapped with suppliers.
Technology Used: Asp.Net MVC, .Net core,Web Apl,C#,PLSQL,Oracle,HighCharts

4. RSMS(overseas client:Kingdom of saudiarabia)

This is a web application is used for work flow managing and Records of the radioactive sources details in various organization in the country . Permits and Procurement forms, Service flow of the source all are to be recorded .Integration of ship,flight and land transport location updates
Technology Used: Asp.Net MVC, C#,PLSQL, Oracle, HighCharts,AWS

5. EEES (onsite:Kingdome of saudiarabia)

This is a web application is used for handle Accreditation system of programs in the university. Course level, Program level and Department level Penetrations are there
Technology Used: Asp.Net , C#,PLSQL,Oracle,HighCharts

6. EAGLE

This is a web application is used to evaluate student's performance of the school, Teachers evaluation etc, Regional,Province, city levels are available.
Technology Used: Asp.Net , C#,PLSQL,Oracle,HighCharts

7. FCP (Onsite: Petroleum Development , Oman)

This is a web application is used for facility management system . Handling issues are raised by the members ,after review and proposed solutions by fcp panel all recorded by hierarchy level.
Technology Used: Asp.Net , C#, SQLServer

8. RIMS (Onsite: Educational Institutes UAE)

This is a web application is used to school management system . Handling Student Registration,Grades,Fees,Transport ,Medical and Book Store.
Technology Used: Asp.Net , C#, SQLServer

9. CBware (Clients: Cooperative Banks in kerala)

This is a desktop application is used to handle banking day to day transaction with all banking modules.
Technology Used: PowerBuilder , Oracle 8i

Techno alliance India | Kerala, India
Senior Software Engineer & Project Lead | 2006- 2009

- Involved in gathering requirements
- Involved in system designing, database developing, software coding and database Administration
- Interacted with meetings with project coordinator for effectively resolving escalated issues and enhancing client satisfaction
- Technical documents and participated in code review
- Application Support on Production environment
- Installation, Configuration, Managing, monitoring , backup and restore etc

ITCS | Kerala, India
Application Support Engineer | 2002- 2005

- Support to customers onsite Banks for desktop applications
- Software Implementations (Oracle,Powerbuilder and windows)
- Training to the customers
- Production Support
